RULES OF SCORE-O

On the first day of the Honvéd Cup, we are waiting for you with an exciting score event in the afternoon! Get your SI-cards ready, because you will have the opportunity to use them in this fast-paced score race. Choose from 30-, 45- or 60-minutes time frames and 55 controls await you on the course. It's not enough to hit as many controls as possible, you'll also need to use the right strategy as the controls have different point values, determined by the control code. The control code is shown on the map next to the control

VESZPRÉMI HONVÉD SPORTEGYESÜLET TÁJFUTÓ SZAKOSZTÁLY

and can also be found in the control description. Controls with a higher code, which are more difficult to reach, will therefore be given a higher score in your result.

You must also be careful to keep to the time limit, as being late will result in a deduction of 20 points per minute. The winner of the race is the one with the highest score! Try it!

Make sure you have an SI-card with enough memory!
