TERRAIN, MAP Typical mid-mountain terrain in the Vértes Hills. The terrain is quite varied, with valleys cutting through the hillsides, which are steep and rocky in places. The vegetation is generally easy to run through, with denser vegetation occurring in the more closed forests, but the open areas are very easy to run through everywhere. The map was corrected in 2025-2026 based on LIDAR data. The scale is 1:10,000/1:7,500 on both days.
