Terrain

Highly varied area with large patches of forest, vineyards, and open areas. Variable density network of tracks with mostly good rideability. A mix of fairly flat areas and steep hill sides.

Off-track riding is under discussion with landowners. There might be some controls located off the paths. Detailed information about rideable areas will follow in the final information to be published in April.

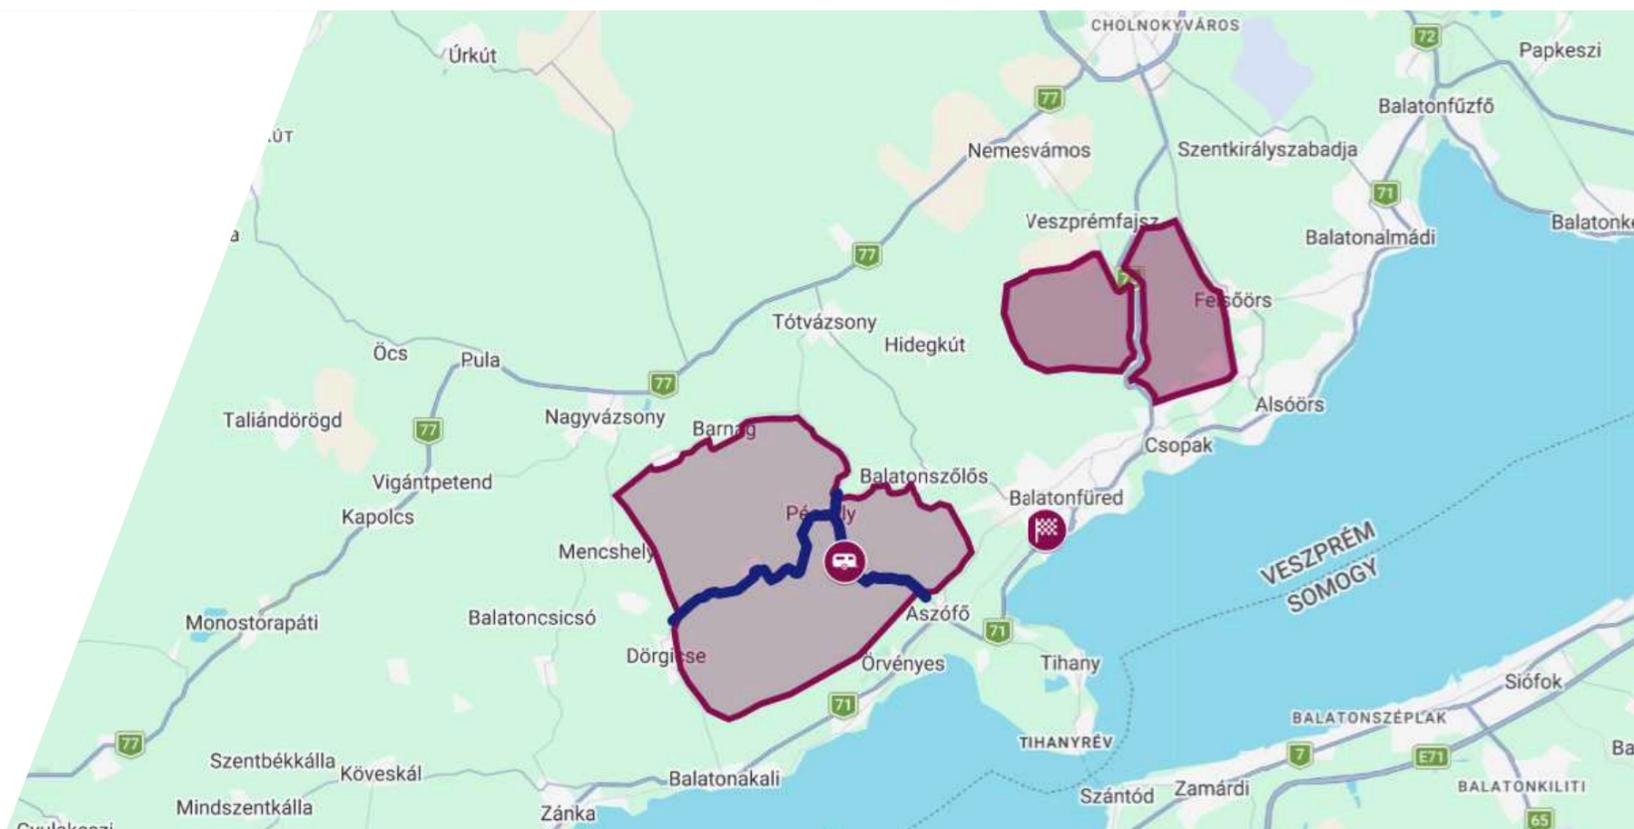

Embargo

The following areas shown on the map are embargoed. No training is allowed until the competition. Travel is allowed only using the permitted through roads.

The areas marked in **purple** are fully embargoed. These areas are completely out of bounds, and it is strictly forbidden to enter these areas - not even without a map - or stay in accommodation there. Travelling on public asphalt roads is permitted, but any attempt to survey or train on permitted roads is not allowed.

The permitted through roads are shown in **blue**.

Full details about embargoed areas are given on [Google maps](#).
